## What is Project SEARCH Winnipeg?

Project SEARCH is an educational program with a unique approach to work experience. In the program, students are fully immersed within our host businesses where they complete unpaid work experiences. Students gain essential employability skills for their resumes with the goal to secure competitive employment.

## What will happen at the Reverse Job Fair?

Students from two Project SEARCH Winnipeg programs will speak to their skills & experience as they introduce themselves to members of the business community. Students will present themselves independently or with support.

## What if I meet someone I want to hire?

SCE Lifeworks' Supported Employment Services will be on hand to talk about possible ways forward and share with you the advantages of a diverse workforce.
